Contents Volume 69

Vol. 69, No. 1

A caveat on the measurement of productive efficiency
P.J. Agrell and B.M. West 1
Strategy management through quantitative modelling of performance measurement systems
U.S. Bititci, P. Suwignjo and A.S. Carrie 15
Coherence analysis methods for production systems by performance aggregation
Y. Ducq, B. Vallespir and G. Doumeingts 23
Performance analysis of a batch production system with limited flexibility
A.C. Garavelli 39
Fuzzy multi-criteria decision-making procedure for evaluating advanced manufacturing system investments
E.E. Karsak and E. Tolga 49
Cycles optimization: The equivalent annuity and the NPV approaches
E. Luciano and L. Peccati 65
Internal obstacles restraining productivity improvement in small Finnish industrial enterprises
H. Rantanen 85
An integrated approach to process control
W.A.J. Schippers 93
Performance measurement in construction logistics
T. Wegelius-Lehtonen 107
Diary of Events 117

Vol. 69, No. 2

Valuation of strategic production decisions
A. Brassler and H. Schneider 119
Integration of production and logistics – in principle, in practice and in education
A. Chikán 129
Strategic behaviours in international telecommunications system
L. Cricelli, M. Gastaldi and N. Levialdi 141
QFD not just a tool but a way of quality management
C.P.M. Govers 151
Ten tools for customer-driven product development in industrial companies
H. Kärkkäinen, P. Piippo and M. Tuominen 161
The development of a decision support tool for the selection of advanced technology to achieve rapid product development
A. Kengpol and C. O'Brien 177
Customer service based design of the supply chain
J. Korpela, A. Lehmusvaara and M. Tuominen 193
Manufacturing and supplier roles in product development
D. Maffin and P. Braiden 205

0925-5273/01/$ - see front matter © 2001 Elsevier Science B.V. All rights reserved.

Long-term capacity management: Linking the perspectives from manufacturing strategy and sales and operations planning
J. Olhager, M. Rudberg and J. Wikner 215
The integrated management of logistic chains in the white goods industry. A field research in Italy
M. Perona, R. Cigolini, M. Adani, R. Biondi, S. Guzzetti, R. Jenna, M. Chessa and S. Agellara 227
Dynamic analysis of changes in decisional structures of production systems
G. Zülch, A. Rinn and O. Strate 239
Diary of Events 253

Vol. 69, No. 3

Heuristic methods for cost-oriented assembly line balancing: A comparison on solution quality and computing time
M. Amen 255
The use of parametric and non-parametric frontier methods to measure the productive efficiency in the industrial sector: A comparative study
L.R. Murillo-Zamorano and J.A. Vega-Cervera 265
The calculation of shadow prices for industrial wastes using distance functions: An analysis for Spanish ceramic pavements firms
E. Reig-Martinez, A. Picazo-Tadeo and F. Hernández-Sancho 277
A framework for maintenance and replacement of a network structured system
P.A. Scarf and H.H. Martin 287
Make to stock or make to order: The decoupling point in the food processing industries
D.P. van Donk 297
A two-echelon inventory model with lost sales
J. Andersson and P. Melchiors 307
Common due date assignment for scheduling on a single machine with jointly reducible processing times
D. Biskup and H. Jahnke 317
Minimizing total flow time in a two-machine flowshop problem with minimum makespan
J.N.D. Gupta, V.R. Neppalli and F. Werner 323
Heuristics for replenishment with linear decreasing demand
G.Q. Zhao, J. Yang and G.K. Rand 339
Diary of Events 347
